

New 90° Smart Pro OBD Master Cable ADC2013 - Code D755648AD

March 2022

Advanced Diagnostics is pleased to announce the release of a new optional accessory for Smart Pro.

The 90° OBD master cable gives more flexible positioning options to make the use of Smart Pro even more convenient.

What does the 90° OBD master cable do?

ADC2013 attaches to the Smart Pro 50 way connector and connects to the vehicle OBD socket.

The 90° angle allows the cable to fall vertically giving a more comfortable and safe operating position when Smart Pro is held in the hands. This position also helps protect and prolong the life of the cable.

The cable is 1.5m in length and is produced in conformity with CE mark European standards.

What else is needed?

Smart Pro
